

# Submission: **NED 4**

Reporting committee: **CLUB WORKING GROUP**

---

## **ORC CLUB CERTIFICATE**

### **PROPOSAL**

- a) Change the Heavy Items box to blank
- b) When a boat is measured without a spinnaker the number of spinnakers in the %maximum number of sails+box should be zero
- c) Consider certificate layout part of the Rule and change control. Publish Rule and certificate layouts at the same time

### **RATIONALE**

- a) Netherlands does not register Heavy Items. Current layout causes confusion and lots of calls for clarification
- b) The current display of the theoretical maximum number of spinnakers causes confusion
- c) Late changes of ORC Club certificate of 2008 have caused incorrect certificates going out in the yearly revalidation mailing.
